

Index to Volume 46 of Mayo Clinic Proceedings

In Volume 46, advertisements have been given page numbers just as have all text pages. If the journal is bound without the advertising, there will be gaps in the page numbers of the bound volume. This is normal and does not indicate that textual material is missing from the bound issues.

- Abstracts: 61, 206, 293, 363, 440, 502, 565, 629, 700, 765, 829
- Acetaminophen, aspirin, and sodium salicylate, effect of, on bleeding, 178
- Acetylcholine: convulsive excitability of chronically isolated cortex, 240
- Acidic glycosaminoglycans, scleroderma and urinary excretion of, 119
- Acrsclerosis: antinuclear antibodies; their significance in scleroderma, 111
classification and pathogenesis of scleroderma, 83
immunoglobulins in systemic scleroderma, 108
management of scleroderma, 128
- Addiction, new theory of; suppression of physical dependence and induction of hypersensitivity to morphine by stereotaxic hypothalamic lesions in addicted rats, 653
- Adenocarcinoma: pancreatitis associated with pancreatic carcinoma, study of 26 cases, 174
- Adenoma, pituitary, and intrasellar aneurysm; report of case, 532
- Aging, normal, phenomenon?, loss of Y chromosome; 45,X cell lines in adult men, 52
- Albumin and electrolyte solutions, 24-hour perfusion and storage of canine kidneys with, 193
- Amino acid excretion, urinary, in patients with scleroderma, 114
- Amphetamines: perspective on drug abuse, 468
- Ampullary carcinoma: pancreatitis associated with pancreatic carcinoma; study of 26 cases, 174
- Amyotrophic lateral sclerosis, innervation of muscle spindles in, 245
- Anatomy, Tyson's, of a pygmy, 1699, 560
- Andersen HA, 728
- Anemia, pernicious, increased association of Graves' disease with, 37
- Aneurysm, intrasellar, and pituitary adenoma; report of case, 532
- Annis J, 258
- Antibiotics: epidemiologic significance of *Klebsiella pneumoniae*; a 3-month study, 785
- Antibody determinations and laboratory diagnosis of rubella virus infections in routine medical practice, 477
- Anticoagulation: continuous intravenous administration of heparin, 347
- Antinuclear antibodies; their significance in scleroderma, 111
- Antrum, retained gastric; clinical considerations, 25
- Aortic arch anomalies: congenital vascular ring; surgical considerations and results of operation, 182
- Aortic arch, truncus arteriosus with interruption of; report of case successfully repaired, 40
- Arterial complications of retrograde brachial arterial catheterization; prospective study, 589
- Arterial renal disease in renovascular hypertension, pathologic classification of, 161
- Arteriovenous fistulas: experiences with discrepancy in length of lower extremities, 489
- Arteritis, temporal, in Rochester, Minnesota, 1951 to 1967, 597
- Artery disease: roentgen videodensitometric measure of coronary blood flow; determination from simultaneous indicator-dilution curves at selected sites in the coronary circulation and in coronary artery-saphenous vein grafts, 800
- Aspirin, sodium salicylate, and acetaminophen, effect of, on bleeding, 178
- Atherosclerosis, experimental, in swine; I, comparison of menhaden-oil supplements in tallow and coconut-oil diets, 613
- Atherosclerosis, experimental, in swine; II, effects of methionine and menhaden oil on atherogenic diet containing tallow and cholesterol, 621
- Atresia: truncus arteriosus with interruption of aortic arch; report of case successfully repaired, 40
- Autoimmune disease: increased association of Graves' disease with pernicious anemia, 37
- Avasthey P, 794
- Bacilli, acid-fast: infections caused by *Mycobacterium fortuitum*, 747
- Baker HL Jr, 532
- Barrett esophagus; columnar-epithelial-lined lower esophagus, 728
- Bell's palsy in population of Rochester, Minnesota, incidence and prognosis of, 258
- Bernatz PE, 25
- Biliary tract: prevalence of gallbladder disease among Chippewa Indians, 603
- Biopsy: pancreatitis associated with pancreatic carcinoma; study of 26 cases, 174
- Biopsy, endoscopic: Barrett esophagus; columnar-epithelial-lined lower esophagus, 728
- Bladder: proper perspective on vesicoureteral reflux, 807
- Bleeding, effect of aspirin, sodium salicylate, and acetaminophen on, 178
- Bleeding time: new method of demonstrating effect of therapy in von Willebrand's disease, 345
- Block, heart: clinical experiences with permanent demand pacemakers, 44
- Blood: familial erythrocytosis due to electrophoretically undetectable hemoglobin with impaired oxygen dissociation (hemoglobin Malmö $\alpha_2\beta_2^{97}$ β_{1a}), 721
- infections caused by *Mycobacterium fortuitum*, 747
- L-dopa therapy of Parkinson's disease; plasma L-dopa concentration, therapeutic response, and side effects, 231
- lymphocytopenia; its causes and significance, 168
- paradoxical changes in platelets and fibrinogen in chronically induced intravascular coagulation, 521
- polycythemia vera, 1935-1969; epidemiologic survey in Rochester, Minnesota, 751
- significance of dietary plant sterols in man and experimental animals, 549
- Blood flow, coronary, roentgen videodensitometric measure of; determination from simultaneous indicator-dilution curves at selected sites in the coronary circulation and in coronary artery-saphenous vein grafts, 800
- Blood, human, pre- β (or α_2) lipoprotein of high density in, 328
- Blood of normal and ethanol-treated rats, glucose metabolites in, 391

- Blood, whole, in pump-oxygenator, myocardial metabolism in open-heart surgery using, 333
- Bolton CF, 286
- Bone, ganglion cysts of, 484
- Bone grafting: femoral shortening for leg-length discrepancy, 29
- Bone loss, phosphate-induced, and soft-tissue calcification, effect of diphosphonate on, 492
- Bone marrow analysis: 45,X cell lines in adult men; loss of Y chromosome, normal aging phenomenon?, 52
- Book reviews: 200, 292, 361, 437, 499, 562, 626, 695, 760, 819
- Bookplates, books, and their owners, 358
- Bowie EJW, 178, 345, 521
- Boyer SH IV, 721
- Brachial, retrograde, arterial catheterization, arterial complications of; prospective study, 589
- Brain tumors: intraventricular meningiomas, 735
- Burgess JN, 728
- Burke EC, 352, 461, 757
- Cabanela ME, 492
- Cadaver organs: effective system for long-term organ preservation, 754
- Calcification, soft-tissue and phosphate-induced bone loss, effect of diphosphonate on, 492
- Campion BC, 589
- Cancer homeostasis: lymphocytopenia; its causes and significance, 168
- Carcinoma, pancreatic, pancreatitis associated with; study of 26 cases, 174
- Cardiac anomalies: truncus arteriosus with interruption of aortic arch; report of case successfully repaired, 40
- Cardiac lesions: incidence of congenital heart disease in children born to residents of Olmsted County, Minnesota, 1950-1959, 794
- Cardiac pacing, electrical: clinical experiences with permanent demand pacemakers, 44
- Cardiac incompetence: Barrett esophagus; columnar-epithelial-lined lower esophagus, 728
- Cardiovascular diseases: effect of electrode position on modified Frank electrovectorcardiographic lead system, 536
- Carlson HC, 728
- Carrier HM, 742
- Carter ET, 742
- Catheterization, retrograde brachial arterial, arterial complications of; prospective study, 589
- Causalgia: S. Weir Mitchell; nerves, peripheral and otherwise, 274
- Cell lines, 45,X, in adult men; loss of Y chromosome, normal aging phenomenon?, 52
- Central nervous system: L-dopa therapy of Parkinson's disease; plasma L-dopa concentration, therapeutic response, and side effects, 231
- Cerebral circulation, studies of; what have they taught us about stroke?, 268
- Cerebral contrast studies: intracranial midline echo shift and width, 593
- Charache S, 721
- Chelation: urinary amino acid excretion in patients with scleroderma, 114
- Chemotherapy: genitourinary infection due to *Mycobacterium kansasii*, 387
- Children born to residents of Olmsted County, Minnesota, 1950-1959, incidence of congenital heart disease in, 794
- Children, ectopic kidney in, and frequency of association with other malformations, 461
- Cholesterol: experimental atherosclerosis in swine; I, comparison of menhaden-oil supplements in tallow and coconut-oil diets, 613
- pre- β (or α_2) lipoprotein of high density in human blood, 328
- Cholesterol and tallow, effects of methionine and menhaden oil on atherogenic diet containing, II; experimental atherosclerosis in swine, 621
- Cholesterol metabolism: significance of dietary plant sterols in man and experimental animals, 549
- Chromosome, Y, loss of, normal aging phenomenon?, 45,X cell lines in adult men, 52
- Circulation, cerebral, studies of; what have they taught us about stroke?, 268
- Clark JA, 97, 104
- Clinical experience with acute peptic gastrointestinal ulcers, 15
- Clinical experiences with permanent demand pacemakers, 44
- Clinical service, neurologic research, and training, national trends in support of, 282
- Coagulation, chronically induced intravascular, paradoxical changes in platelets and fibrinogen in, 521
- Code CF, 92
- Collagen: classification and pathogenesis of scleroderma, 83
- scleroderma and urinary excretion of acidic glycosaminoglycans, 119
- Columnar-epithelial-lined lower esophagus; Barrett esophagus, 728
- Congenital heart disease in children born to residents of Olmsted County, Minnesota, 1950-1959, incidence of, 794
- Congenital myopathy, recently recognized, associated with multifocal degeneration of muscle fibers; multicore disease, 666
- Congenital vascular ring; surgical considerations and results of operation, 182
- Convulsive excitability of chronically isolated cortex, 240
- Cooper HA, 521
- Cooperman AM, 193, 754
- Coronary blood flow, roentgen videodensitometric measure of; determination from simultaneous indicator-dilution curves at selected sites in the coronary circulation and in coronary artery-saphenous vein grafts, 8:0
